</table>

**Year introduced**
- Named 1935

**Native range**
- Hybrid origin

**Developed by**
- William H. Judd, Arnold Arboretum

**Patent #/ information**
- Maxwell Arboretum Viburnum Coll., ID No. 19038, old 803; & Porch

**Location**
- Quantity 1

**Source/date**
- Planting size 18” B&B
- Planting date 4/15/1990

**Culture**
- Sun/shade: Full Sun to Part Shade
- Soil: Acid
- Drainage: Well-drained

**Moisture requirements**
- Moist

**Plant characteristics**
- **Height x Spread**: 6-8’ × 6-8’
- **Form**: Rounded

**Flower**
- **Color**: Pink bud > white
- **Flower Form**: Hemispherical cyme
- **Size**: 2.5” - 3.25”
- **Bloom time**: Mid-late April

**Leaf color**: Bluish green
**Leaf size**: 1.75” - 2.5” × 1” - 1.75”
**Leaf form**: Leaf texture: Dull; dense stellate pubescence on underside

**Fruit color**: Red > black
**Fruit type**: Drupe
**Fruit size**: Fruit wildlife use

**Persistency**: Persistent

**Bark/stem color**: Burgundy
**Bark/stem texture**: Twigs and buds

**Maintenance**: Propagation: Cuttings

<td>William Henry Judd (1888-1946) was born in Preston Brook, Cheshire, England. In 1913, Judd came to the Arnold Arboretum to work as assistant to the Arnold Arboretum's propagator, Jackson Thornton Dawson. When Dawson died in 1916, Judd was appointed propagator of trees and shrubs. He would continue to serve the Arboretum in this capacity until his sudden, premature death at 59 in 1946. For additional biographical information, Judd's plant breeding work, and a detailed inventory of his papers at the Arnold Arboretum, see <a href="http://www.arboretum.harvard.edu/wp-content/uploads/IV_A-1_WHJ_2012.pdf">http://www.arboretum.harvard.edu/wp-content/uploads/IV_A-1_WHJ_2012.pdf</a></td>
