A few things to look for in Maxwell Arboretum in September

1. *Chelone lyonii* ‘Hot Lips’ Turtlehead
2. *Ceratostigma plumbaginoides* Plumbago
3. *Boltonia asteroides* Boltonia
4. *Anemone × hybrida* ‘Whirlwind’ Japanese Anemone
5. *Oenothera lindheimeri* Gaura
6. *Hylotelephium* ‘Herbstfreude’ AUTUMN JOY Sedum
7. *Allium senescens ssp. glaucum* Ornamental Onion
8. *Baptisia australis* Blue False Indigo*
9. *Akebia × pentaphylla* Five-Leaf Akebia*
10. *Malus* sp.*
11. *Callicarpa dichotoma* Beautyberry*

For a great display of late-season herbaceous plants, visit the Evasco and Rain Chain Gardens, north across the street from the Arboretum.

12. *Iris domestica* Blackberry Lily*
13. *Lonicera xylosteum* European Fly Honeysuckle*
14. *Magnolia tripetala* Umbrella Magnolia*
15. *Aesculus parviflora* Bottlebrush Buckeye*
16. *Heptacodium miconiodes* Seven-Son-Flower Tree

Plants with asterisks* are listed for their fruits or seedheads. Number 14 can be found at the Dental College campus entrance. Number 16 can be found just east of the Perin Porch. Number 17 can be found just south of the Perin Porch.
